

## AP 312 – Home Visits

### Background

---

The purpose of this procedure is to establish guidelines for Abbotsford School District personnel making home visits.

### Procedures

---

A home visit is defined as entry to a student’s home at any time or occasion. Providing a student with a ride, or picking him/her up from a home, is not considered a home visit. Any home visit must be determined as essential by the principal and in the best interest of the student.

The district recognizes a student’s need for exceptional services due to health issues or other extraneous concerns. Home visits may occur with district personnel hired for such purposes specifically, Hospital/Homebound Teachers, Alternate Education Teachers and/or Youth Care Workers.

Principals are expected to:

1. Determine if the home visit is necessary.
2. Inform the staff making the home visit that if the situation becomes unsafe he/she must leave the home at once and notify appropriate authorities.
3. Be notified by the staff (except the Hospital Homebound teachers) upon completion of a home visit.
4. Ensure that the parent/guardian has been notified about the home visit as they, or another responsible adult, **must** be present during the entire visit. If the parent/guardian will not be home during the visit, the principal must ensure the appropriate Learning Support Services form for “Home Visits without a Parent/Guardian Present” has been completed, approved and signed by the Director for Learning Support Services.
5. Have appropriate paperwork completed for approval of a Hospital/Homebound teacher (HHT) by the Director of Learning Support Services.
6. Ensure, in cases of Hospital Homebound Services, a schedule for teacher home visits is coordinated by Learning Support Services
